Published Apps: Available on Google Play Store and Apple App Store (links available on request or check my portfolio)

PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of hands-on experience designing, developing, and deploying cross-platform mobile applications for Android and iOS. Proficient in Dart, Flutter, Firebase, Supabase, and modern state management solutions including Riverpod, BLoC, GetX, and Provider. Successfully delivered 8+ mobile applications across healthcare, education, and e-commerce sectors with multiple apps published on both Google Play Store and Apple App Store. Maintains 20+ GitHub repositories demonstrating consistent open-source activity and technical range. Holds a Doctor of Pharmacy background, bringing unique domain expertise to health-tech and pharmaceutical mobile solutions.

TECHNICAL SKILLS

Programming Languages: Dart, JavaScript

Frameworks & Libraries: Flutter, Firebase, Supabase, Riverpod, BLoC/Cubit, GetX, Provider

Mobile Development: Cross-Platform Development (Android & iOS), Responsive UI, Custom Widgets, Material Design, Cupertino Widgets, Widget Testing, Integration Testing

Backend & APIs: RESTful API Integration, Firebase Authentication, Firebase Cloud Messaging, Push Notifications, OAuth

Databases: Firebase Firestore, Supabase (PostgreSQL), SQLite, Hive (Local Storage)

Architecture & Patterns: Clean Architecture, MVVM, MVC, Repository Pattern, Dependency Injection

Tools & DevOps: Git, GitHub, Android Studio, VS Code, CI/CD Pipelines, Google Play Console, App Store Connect, Figma, Postman, AWS

WORK EXPERIENCE

Front-End Developer (Flutter) May 2025 – Present

DOC! — AI-Powered Healthcare Platform, Lagos, Nigeria

- Designed and developed responsive, patient-facing user interfaces for an AI-integrated medical consultation app using Flutter and Dart, achieving 100+ downloads on Google Play Store and active users on both Android and iOS.
- Integrated RESTful APIs and Firebase services (Authentication, Firestore, Cloud Messaging) to enable real-time data synchronization, secure user management, and push notifications.
- Implemented clean architecture with Riverpod state management, reducing code complexity by approximately 30% and improving maintainability across 15+ screens.
- Optimized app performance through lazy loading, efficient widget rebuilds, and image caching, achieving consistent 60fps rendering on mid-range devices.
- Collaborated with backend engineers and UI/UX designers in Agile sprints to translate Figma wireframes into pixel-perfect, accessible mobile interfaces.
- Managed end-to-end deployment pipeline including Google Play Console and App Store Connect submissions, versioning, and release management.

Mobile App Developer (Flutter) 2025 – Present

Bomach Group of Companies, Lagos, Nigeria

- Architected and built a full-stack internal company operating system using Flutter, serving 50+ employees across multiple departments with integrated front-end and back-end modules.
- Designed scalable, modular Flutter architecture using Riverpod for state management with clean separation of concerns across data, domain, and presentation layers.
- Delivered 5+ cross-functional features including task management, reporting dashboards, and internal communication tools, reducing manual operational overhead for the organization.
- Collaborated with stakeholders to gather requirements, define technical specifications, and iterate on prototypes using Agile methodology.

Mobile App Developer (Flutter) Mar 2025 – Jun 2025

Keypoints Academy — EdTech Platform, Nigeria

- Built cross-platform mobile tutorial applications using Flutter, enabling 10+ students to access structured courses, embedded video content, and interactive assessments.
- Integrated Firebase Authentication and Firestore for real-time content management, secure user registration, and progress tracking across sessions.
- Implemented responsive UI layouts with custom widgets ensuring consistent user experience across Android and iOS devices of varying screen sizes.
- Reduced app load time by 40% through optimized asset management, lazy loading of course modules, and efficient state management with Provider.

Mobile App Developer (Flutter) 2024 – Present

Ebbing, Nigeria

- Developed a full-featured competitive quiz application using Flutter, Firebase, and Riverpod, supporting real-time multiplayer competitions with 100+ users and live score tracking.
- Implemented real-time leaderboard functionality using Firebase Firestore listeners, handling concurrent updates from simultaneous users without data conflicts.
- Built engaging UI animations and transitions using Flutter's implicit and explicit animation APIs, improving user engagement and average session duration.
- Ensured cross-platform compatibility by testing and debugging on 10+ Android and iOS device configurations.

PROJECTS

DOC! — AI Medical Consultation App | Flutter, Dart, Firebase, REST APIs

AI-integrated healthcare app providing real-time on-demand medical consultations, appointment management, and patient dashboards. 100+ downloads. Published on Google Play Store and Apple App Store.

OSCEPRO — Medical Education App | Flutter, Dart, Firebase

Interactive tutorial app for medical students and professionals featuring OSCE (Objective Structured Clinical Examination) case scenarios with scoring rubrics. Published on Google Play Store and Apple App Store.

Bomach OS — Company Operating System | Flutter, Dart, Riverpod, Firebase

Internal enterprise operating system with modular architecture handling task management, reporting, and internal communications. Used daily by 50+ employees.

Quizzy — Competitive Quiz Platform | Flutter, Dart, Firebase, Riverpod

Real-time multiplayer quiz platform hosting public competitions with live leaderboards and scoring engine. 100+ active users.

SafeDeals — Pharmacy E-Commerce | Flutter, Dart, GetX

Secure e-commerce platform connecting users with verified pharmacies for safe drug purchases, order tracking, and reliable delivery.

MediTracker — Medication Adherence App | Flutter, Dart, Local Notifications, SQLite
Health app enabling users to log medication intake, set prescription reminders, and track adherence history with data visualization.

DrugHub — Pharmaceutical Reference | Flutter, Dart, REST APIs
Drug reference application for pharmacists to search uses, side effects, interactions, contraindications, and dosage guidelines.

EDUCATION

Doctor of Pharmacy (D.Pharm) — Pharmaceutical Sciences Expected 2026
University of Nigeria, Nsukka (UNN)

ADDITIONAL INFORMATION

Soft Skills: Problem Solving, Cross-Functional Communication, Team Collaboration, Time Management, Adaptability, Self-Directed Learning, Attention to Detail

Methodologies: Agile/Scrum, Test-Driven Development (TDD), Code Review, Pair Programming

Languages: English (Fluent)

Domain Expertise: Healthcare/Health-Tech, Education/EdTech, E-Commerce, Pharmaceutical Sciences
